PROJECT DURATION:01.10.2019-30.09.2021

January

Vol. 3

SHORT SUMMARY:

4EXPORT:

- is a 2-year EU project under the Erasmus + program
- intends to boost the internationalisation of SMEs by promoting interdisciplinary apprenticeship training and education in Europe
- targets workers in SMEs, and more specific, in-company tutors who will provide apprentices with the latest innovative capabilities and skills related to interdisciplinary apprenticeship in an international environment
- is implemented by partners from 4 different countries: Spain, Poland, Ireland and Italy

We have already completed 1 year of intensive and fruitful cooperation! There was a lot going on at that time. Additionally, we had to deal with difficulties due to COVID-19. However, despite various adversities, work on the project is moving forward. Although some of the planned activities had to be adapted to current conditions (e.g. 2nd meeting that took place online, difficulties in piloting IO2, etc.), we have finished work on IO1 and IO2 is in its final stage. More information on our current activities is on the next page of the Newsletter.

News

Curriculum Programme for the in-company tutors for upgrading internationalisation (IO2) - progress

Curriculum Programme focus on:

- The specific dimension for internationalisation activities, and how the in-company tutor role needs to be adapted
- Ways for effectively interaction between in-company trainees and apprentices
- Ways for effectively cooperation with training institution or employment agencies, in order to promote apprenticeship programmes
- National priorities (for example: best practices in production, web analytics, financial resources, public funding opportunities, measures or legislation framework, specific measure to support internationalisation)
- The Europass Mobility document

The development process of IO2 consisted of 4 stages:

- Agreement and designing of the content of the training
- Production of the training materials (MOOC)
- Adjustment and adaptation the delivery methodology
- Translation key parts of the training materials

Now, We are on the last one.

So soon, the result will be finalized and made available to read the content.

Development of the Interactive Web Platform (IO3)

Currently, work is also underway to develop the platform. It was divided into 2 parts:

- INTERACTIVE MAP
- E-LEARNING PLATFORM with E-learning and Self Directed Learning Guide.

The first results are already visible and e-learning will be available in the near future.

Ultimately, the platform will be available in English, Spanish, Polish and Italian.

What's coming up next?

- 3rd TPM in February
- Finalisation of the Curriculum Programme (IO2)
- Finalisation of the Interactive Web Platform (IO3)
- Development of the Self-Directed Learning Guide (IO4)

Stay tuned!
