- ✦ The project's target group includes in-company tutors in SMEs, and more specific, in-company tutors who will train people in charge of apprenticeship programmes in international environments

BRIEF UPDATES

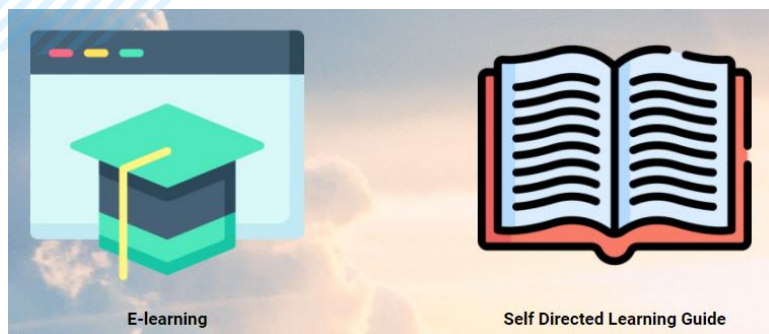

- ✦ Despite the COVID-19 emergency, the project is running smoothly and almost all the transnational project meetings among the project partners took place online with the only exception of the kick-off meeting, which took place in-presence
- ✦ Due to the COVID emergency, the project meetings weren't held in-presence so the partnership decided to allocate the budget differently and to create extra activities that include:
 - interactive videos on the modules developed by the partnership
 - creation of a database with VET providers working
